### Facilitator profile:

Katie is a Partner in the Project & Infrastructure team at BDO. Katie has over 20 years' experience working to help governments make better decisions around infrastructure and service delivery. She has undertaken policy analysis, economic and financial appraisal and project delivery advice (procurement, risk and governance).

Katie previously worked for Department of Infrastructure and Department of Treasury and Finance (Victoria). She also worked for Halcrow's Economic and Strategic consulting arm based in London (and working across Europe and Middle East), and SKM/Jacobs in Melbourne.

Katie specialises in the development and review of government projects, programs and events. This includes business cases, feasibility studies, lapsing program evaluations, economic impact analysis, cost benefit analysis and financial analysis. Katie has led the development of more than 50 business cases across a range of sectors (with a focus on sports, arts, culture and tourism).

Katie is an accredited ILM facilitator and has attended the full DTF Investment Management Standard training and has successfully met the accreditation requirement for the ILM process across multiple years.

### Expertise:

- Project Management
- Understanding of government and DTF processes and requirements
- Business case development
- Program evaluation
- Economic analysis - cost benefit analysis and economic impact analysis
- Engaging facilitation
- Clear communication and decision making

### My facilitation approach:

Katie's approach to ILM development draws on her extensive experience working with and in government and her experience developing government business cases across health, sport, community infrastructure, arts, culture, tourism, sustainability, and transport sectors. Katie has proven experience in designing, delivering, and evaluating government programs and projects, coupled managing complex stakeholder activities. Katie has lead and delivered more than 50 business cases and understands how ILMs should be constructed so that they can support a successful and robust business case.

Katie can work with you and your project team to clearly scope the need for investment, articulate the benefits and demonstrate that a broad range of options have been considered and tested before landing on preferred option. She can do this with an understanding of what government's objectives and goals are.

Katie has an engaging, pragmatic and collaborative approach to facilitation, ensuring the views of all in the room are heard, while also probing, testing and building consensus across the group. This approach enables the group to land on a common understanding of the problem to be solved and ensures ownership and buy-in from the group, which is critical for the future success of the business case.

Katie has completed ILMs a number of clients including (but not limited to):

- Phillip Island Nature Parks,
- Department of State Development, Infrastructure and Planning,
- Department of Health,
- Department of Jobs, Skills, Industry and Region (Sports and Recreation),
- Immigration Museum,
- Melbourne Museum,
- Motorsport Australia,
- Western Bulldogs Football Club
- Regional Development Victoria

### Why BDO:

BDO is the fifth-largest accounting firm globally, with 13 offices and close to 3,000 employees in Australia. Our Infrastructure Advisory team comprises of more than 100 dedicated professionals committed to supporting government initiatives across Australia. If required, we can seamlessly integrate the ILM facilitation process into a broader business case development project. Katie can leverage expertise from across the firm and draw together a deep understanding of the governmental environment, culture, policies, and machinery with appropriate specialist knowledge

### Indicative pricing:

The number and content of the workshop will be determined based on the specific needs of the client. Time and cost may vary depending on the level of existing information or workshops held. Katie is based in Melbourne and workshops can be facilitated either online or in-person. Katie is also available for travel within Australia and NZ, at cost. Katie offers competitive pricing and value for money for each workshop.

Service	Online workshop Fee	In person facilitation (metro Melbourne)
